

Climate Data Story Team Assignment

(Worksheet 2)

Instructions

1. Based on the top SCAP variables identified in *Handout 4: Climate Impacts of Highest Importance to the Spokane Community*, please sort into teams based on your interests. This will become your climate data story team.
2. Complete Part 1 of this worksheet today and share that information with all team members and CIRC. CIRC will share other data sources you may consider using to develop your climate data story with your climate data story team.
3. Part 2 is working in your climate data story team to use the skills you learned today. Our next group meeting will convene around sharing the climate data stories you've developed.

PART 1: Establish Your Climate Data Story Team

Identify your climate data story topic

Team members and contact information

Date of first meeting:

Part 2: Create Your Climate Data Story

Climate Data Story—a narrative outlining the climate conditions your community faces. You can reference *Handout 2: Boise Climate Adaptive Assessment*, which can be accessed on the SCAP website. Our next CIRC Spokane Community Adaptation Project meeting will discuss the climate data stories that your teams develop. Keep in touch!
